INTRODUCTION TO MENDOLE A/S

Mendole has established a strong presence and client base within Denmark’s installation and service market for commercial and industrial buildings.

Mendole currently operates across roofing and roof maintenance, energy services, electrical installations, and LED lighting solutions, and is actively preparing to expand into plumbing, ventilation, and green energy services.

With a dedicated organization of more than 85 employees, Mendole is focused on consolidating and strengthening its position in the Danish market.

Mendole distinguishes itself as an attractive partner through its integrated group structure, which enables the company to deliver a comprehensive range of solutions.

Acting as a one-stop shop, Mendole combines expertise in roofing, electrical, and energy services, with additional areas to follow. This integrated approach reduces the need for customer coordination, minimizes potential issues, and ensures consistently high service quality—ultimately fostering long-term, trusted relationships. At the same time, the group leverages cross-company synergies in procurement and cost management, creating added value and efficiency for its clients.

LETTER FROM THE CHAIRMAN AND THE CEO

Dear Shareholders, Partners, and Colleagues,

The first quarter of 2026 presented Mendole with a challenging operating environment. Adverse weather conditions during the winter months, combined with mounting geopolitical uncertainty – including volatile energy prices driven by fluctuating oil markets – led to project postponements and reduced operational efficiency across our core businesses. These factors weighed negatively on both turnover and contribution margins relative to budget and have stressed liquidity. Despite these headwinds, the Group delivered revenue above the corresponding period in 2025, demonstrating continued underlying demand for our services. Importantly, the confirmed order pipeline remains robust: approximately 90% of budgeted sales for NimTag A/S, our main roofing business, have been booked, providing meaningful visibility throughout the remainder of the year.

Cost and Cash Management

Recognising the pressures on revenue and margins early in the quarter, Management moved quickly to reduce overhead. Targeted cost reductions were implemented across administrative functions and marketing spend, protecting Group profitability without compromising operational capabilities or customer-facing capacity. Cash management has been a central focus, with tighter control on working capital and active dialogue with our banking partners to ensure sufficient headroom.

These measures have been effective, and the activity outlook for Q2–Q4 2026 supports Management’s expectation of recovering the shortfall from Q1. However, the path is not without risk, particularly if geopolitical disruptions and elevated input costs persist.

Guidance

Despite the revenue shortfall in Q1 2026, Management has been able to manage rising material costs in a way that allows the Group to maintain its full-year guidance of revenue in the range of DKK 125–155 million and EBITDA of DKK 6.0–8.0 million. The strong confirmed order pipeline, tighter cost controls implemented during Q1, and a favourable activity outlook for Q2–Q4 support Management’s confidence in the full-year ranges. We believe transparency towards the market is essential, and we will continue to provide timely updates as the year progresses.

LETTER FROM THE CHAIRMAN AND THE CEO

Acquisition Pipeline

Despite a softer Q1, it remains Management’s firm ambition to pursue the acquisition plan and build Mendole’s platform in Danish technical property services. Mendole’s acquisition strategy continues to progress according to plan. Our pipeline of identified targets in the Danish technical property services sector remains active, and we are in dialogue with several owner-founders whose companies align with our buy-and-build thesis. The Board and Management are committed to maintaining financial discipline in our acquisition approach, ensuring that any transactions are value-accretive for shareholders and aligned with our integration capabilities.

Acquisitions

Further details on completed or signed acquisitions, if any, will be communicated in accordance with applicable market regulations. As previously communicated, the company targets to complete its first acquisitions in 2026 and to initiate the integration of acquired businesses into the Mendole group.

Outlook

The fundamental structural drivers behind our sector – ageing building stock, increasing regulatory requirements, and fragmented competition – remain intact. Our ability to execute cost discipline during challenging quarters, combined with a healthy order pipeline and an active M&A agenda, positions Mendole well for the balance of 2026 and beyond. With the operational platform established following our listing in October 2025, the Group enters the coming quarters with a clear strategic direction and readiness for the next stage of development.

On behalf of the Board and Management.

The Chairman and the CEO.

Henrik Theisler

Chairman of the Board

ABOUT THE INTERIM REPORT Q1 2026

The interim report presents the consolidated financial statements for Mendole A/S and its subsidiaries operating within roofing, energy services, electrical installations, and LED lighting solutions. The report covers the period from 1. January to 31. March 2026 and has been prepared in accordance with the Danish Financial Statements Act.

Auditor’s Review

The interim report has not been reviewed or audited.

Accounting Policy

The interim report has been prepared in accordance with the provisions of the Danish Financial Statements Act for enterprises in reporting class C, medium-sized enterprises.

Revenue and Results

The consolidated revenue amounted to DKK 28.787 thousand in Q1 2026, compared to DKK 26.372 thousand in Q1 2025.

The consolidated net result for the quarter was DKK – 2.982 thousand compared to DKK – 862 thousand in Q1 2025.

Both revenue and profit are strongly affected by the two harsh winter months that started 2026.

Balance Sheet

Total assets of March 31, 2026, amounted to DKK 74.383 thousand, of which DKK 63.985 thousand related to current assets, primarily trade receivables and work in progress.

Equity amounted to DKK 11.092 thousand at the end of the reporting period.

Total assets of December 31, 2025, amounted to DKK 73.030 thousand of which DKK 63.152 thousand related to current assets, primarily trade receivables and work in progress. Equity of December 31, 2025, amounted DKK 14.072 thousand.

Cash Flow

In the period 1. January – 31. March 2026, cash flow from operations amounted to DKK – 1.639 thousand, cash flow from investing DKK – 1.149 thousand and cash flow from financing DKK 2.586 thousand.

Net cash generated from activities for the period totaled DKK – 202 thousand. Cash and cash equivalents at the end of the period (Q 1 2026) were DKK 4.225 thousand.

Financing

The group has had a negative cash flow from operations during the period 1. January – 31. March 2026 and made investments in operating equipment. The Group has financed this by taking out loans.

Subsequent Events

No significant events have occurred after the end of the quarter.

Shareholders

Shareholders with more than 5% of the votes and capital on 31 March 2026.

Operational risks and uncertainties

Mendole is exposed to general market risks related to economic fluctuations, supplier pricing, competition, and developments within the energy sector. The war in Iran and the closure of the Strait of Hormuz have led to significant increases in material prices in the first quarter of 2026 – particularly for roofing felt.
